Unit Information

Factors Considered in the Development of the Unit Staffing Plan (Check all that apply):

- Activity such as patient admissions, discharges, and transfers

Description:

The unit includes 6 pre-op rooms/bays and 10 PACU rooms/bays. Surgeries include ENT, orthopedics, gynecology, plastics, ophthalmology, general surgeries, pain procedures. We are open Monday-Friday and closed on weekends and holidays.

- Patient acuity level, intensity of care needs, and the type of care to be delivered on each shift

Description:

Acuity of patients are ambulatory.

Skill mix

Description:

RN and CNA's staff this unit.

Level of experience of nursing and patient care staff

Description:

All RNs are cross trained to Pre-op, PACU and procedural sedation. The minimum experience required is at least 2 years of ED, ICU, PCU or a qualifying PACU residency.

Need for specialized or intensive equipment

Description:

- Architecture and geography of the unit such as placement of patient rooms, treatment areas, nursing stations, medication preparation areas, and equipment

Description:

Preop consists of 6 admission bays and 1 nursing station. PACu consists of 10 recovery bays, 1 nursing station and a PYXIS. Phase 2 recovery has 5 private patient rooms with private bathrooms. This area is flexed to admit and recovery patients as unit census requires.

- Other

Description:
