Activity such as patient admissions, discharges, and transfers

Description:

This unit provides a full range of emergency services, including resuscitation, stabilization, treatment, and disposition, to patients of all ages, regardless of financial status. A medical screening exam is completed on each patient by a credentialed Physician or Allied Health Provider.

Average daily census and admission/transfer rates monitored and staffed accordingly.

Patient acuity level, intensity of care needs, and the type of care to be delivered on each shift

Description:

27-bed unit serving South King County and surrounding communities. Located in Auburn, WA the unit serves as the gateway for several medically underserved areas to the east, south, north and west, who are seeking services along the more populated interstate 5 corridor between Tacoma and Seattle.

Skill mix

Description:

EDTECH (UAP) are utilized to assist with procedures, phlebotomy, apply casts and splints, and other duties within their scope of practice, as well as non-direct patient care

activities such as care coordination and communication.

Each patient presenting to the Emergency Department seeking medical care will be provided an appropriate medical screening examination to determine the nature and urgency of the health care problem, and the location where treatment can best be rendered. The department offers complete medical treatment and stabilization, evaluation, and disposition to anyone requesting it.

Level of experience of nursing and patient care staff

Description:

Need for specialized or intensive equipment

Description:

Architecture and geography of the unit such as placement of patient rooms, treatment areas, nursing stations, medication
