Hospital Information Continued (Optional)

Factors Considered in the Development of the Hospital Staffing Plan (check all that apply):

- ☒ Staffing guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations

Description:

Worked hours per patient day are based on professional standards

- ☒ Terms of applicable collective bargaining agreement

Description:

SEIU contract followed as applicable

- ☒ Relevant state and federal laws and rules including those regarding meal and rest breaks and use of overtime and on-call shifts

Description:

- ☒ Hospital finances and resources

Description:

Staffing Plans meet WHPPD budgeted

- ☒ Other

Description:

In a quarterly basis, the HSC will review relevant HR data such as (but not limited to) staff turnover rates, new hire turnover during first year of employment, anonymized aggregate of exit interview data (annually), and hospital plans regarding workforce development/planning. The HSC will also review relevant data (quarterly) to assess the effectiveness of unit-based staffing plans and financial performance. Relevant data includes (but not limited to) the compliance with staffing plans, missed meals and rest breaks, and overtime/mandatory on-call reports. Hospital-wide and department-specific quality indicators such as, but not limited to, patient complaints about staffing and patient satisfaction responses should be reviewed quarterly.

Factors Considered in the Development of the Unit Staffing Plan (Check all that apply):

☒ Activity such as patient admissions, discharges, and transfers

Description:

This unit provides a full range of emergency services, including resuscitation, stabilization, treatment, and disposition, to patients of all ages, regardless of financial status. A medical screening exam is completed on each patient by a credentialed Physician or Allied Health Provider.

Average daily census and admission/transfer rates monitored and staffed accordingly.

☒ Patient acuity level, intensity of care needs, and the type of care to be delivered on each shift

Description:

Pt assignment based on intensity of care needs

☒ Skill mix

Description:

EDTECH s are utilized to assist with procedures, phlebotomy, apply casts and splints, and other duties within their scope of practice, as well as non-direct patient care activities such as care coordination and communication.

Each patient presenting to the Emergency Department seeking medical care will be provided an appropriate medical screening examination to determine the nature and urgency of the health care problem, and the location where treatment can best be rendered. The department offers complete medical treatment and stabilization, evaluation, and disposition to anyone requesting it.
